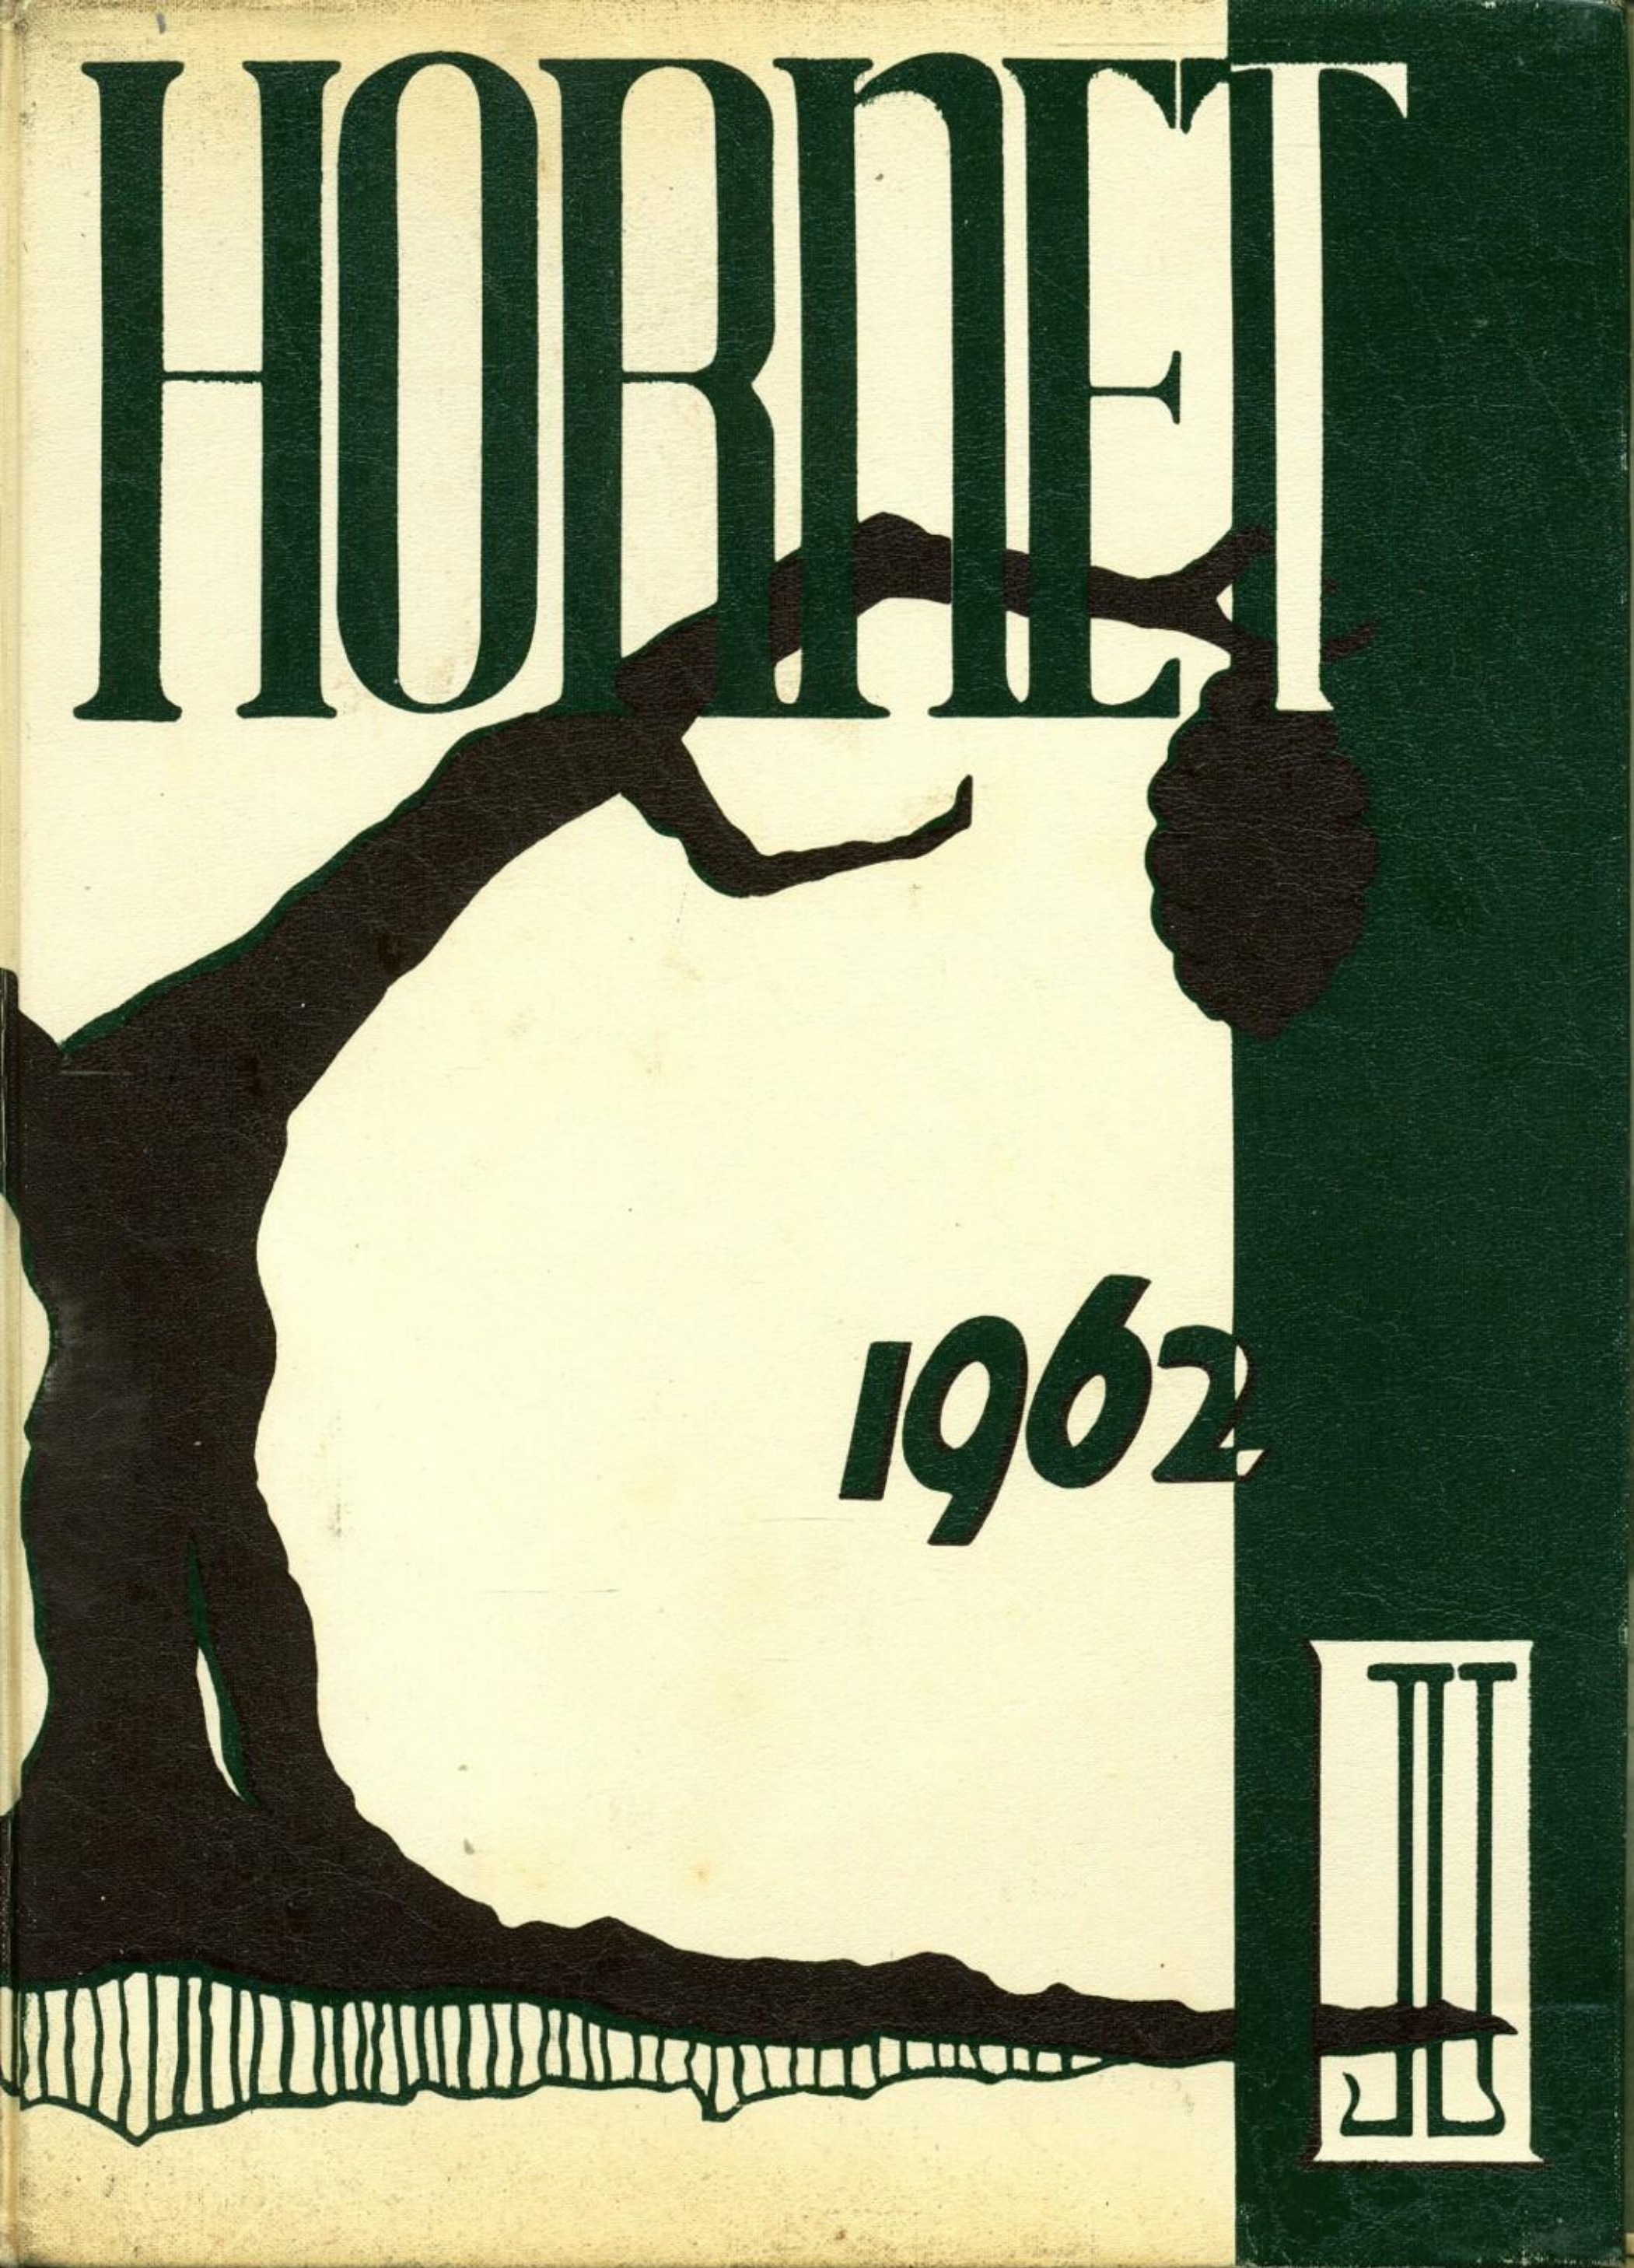
HORNET

1962



CAROLINE HENDERSON

ALMA MATER

Hail! Hail! to thee, our Juniata Valley!
School that we love and always will revere.
Sing now these praises to our Alma Mater -
In memory, thy name we hold dear.

Hail, green and white, our voices shout
thy glory,
Our echoes rising o'er every hill and dale.
With joyful pride, we raise aloft our
emblem.
Singing thy praises, hail, J. V., hail!

Greetings, Students, Faculty, and Administration!

On behalf of the entire HORNET STAFF, I would like to present to you the 1962 HORNET.

With the guidance of Mrs. Emily P. Baldwin, Mr. Ronald Rock, and Mr. George Bocz, we believe we have been successful in our attempt to capture your favorite memories of Juniata Valley High School. We hope you enjoy the memories we have tried to preserve within the covers of this yearbook as much as the HORNET STAFF enjoyed placing them here for you.

With this wish, we give to you the 1962 HORNET.

Sincerely,

Janet Bigelow

THREE OBJECTIVES I GIVE TO YOU

Education for an age of automation must give you preparation in three things.

Two tools - the ability to read and think. With these you can receive information, think about it and communicate with others.

Two pictures of your world - the first is that of the physical world in which you live and of which you are a physical part. This is the world explored by science. The second is a world in which each of you, as a unique individual, must live in mutual dependence with all other individuals in the complex and intricate pattern of relationships described by sociology, economics, political science, and history.

Two attitudes toward your world - the first attitude must be that, in your world, change is inevitable and must be accepted as natural. The second attitude is that it is your responsibility to educate and continually re-educate yourself, as much as possible, to survive and thrive in the rapidly changing world.

It is with these objectives that I challenge you to success in the future.

PRINCIPAL'S MESSAGE

"The strength of a Democracy is judged by the quality of the services rendered by its Citizens." These immortal words first uttered by Plato around 400 B.C. have not only stood the test of time, but have become more significant with each passing generation.

You, the Class of 1962, are about to enter into a world filled with wonderful scientific achievements which extend far beyond the fantastic hopes and dreams of our forefathers. These marvelous inventions of man can either destroy this magnificant civilization overnight or they can build a world that will continue to produce many, more wonderful things in the future.

The destiny of this splendid democratic way of life which we are presently enjoying will depend ENTIRELY upon the services rendered by you, individually and collectively. This is the grave challenge which confronts you as you prepare to enter the adult ranks of society. Which will you resolve to do - help destroy our present way of life by your indifference or, by your interest, enthusiasm, and endless toil, help build a civilization based on love, tolerance and understanding where all the peoples of the world may live together peacefully? IT IS YOUR MOVE.

The faculty and I sincerely hope that with the education you have received during the past twelve years you will be better equipped to make a worthy contribution to the world of tomorrow - a world which will need more than ever a citizenry capable of making vital, critical decisions based on sound judgment.

My best wishes go with you as you leave behind your fond school memories and go forward to greater achievements.

"The Most Influential of All Educational Factors Is the Conversation in a Child's Home."

THE EXECTUVE STAFF

Juniata Valley,
Loud we sing thy praise,
Cherish in the memory
Of our high school days.

Strains of "Alma Mater"
Echo from thy walls;
School day recollections
Brighten thy halls.

Dear, we salute thee!
Sadly we depart;
With fond and dear remembrance
In each and every heart.

THE COURT

JUNIOR-SENIOR PROM — 1961

The food was delicious - thanks to the Mothers of the Class of '62.

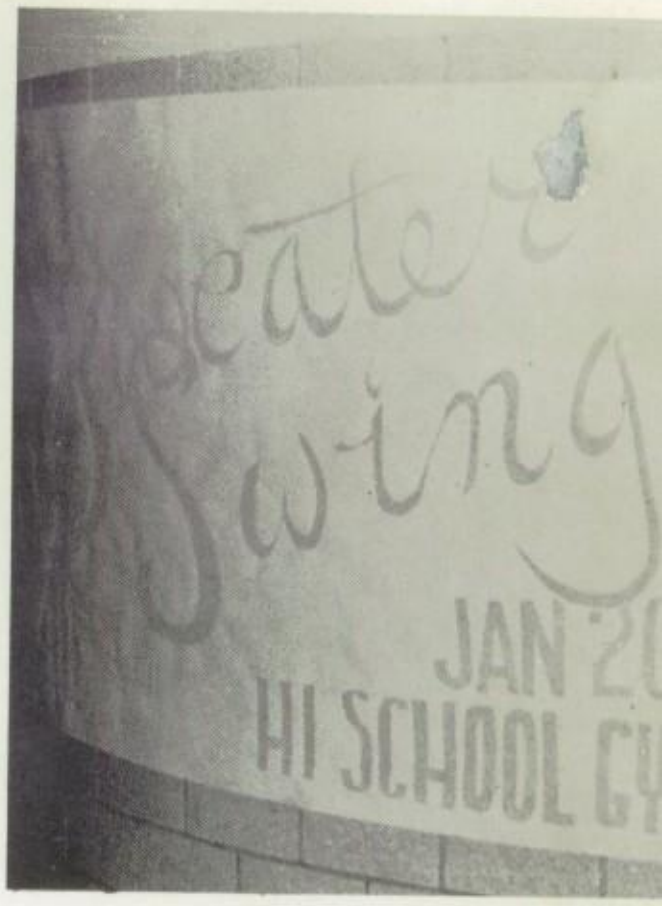
Interested guests.

"Funny - huh, Mr. Beezer."

"SMILE" - you're on candid camera!

DANCES

"Let's twist again!"



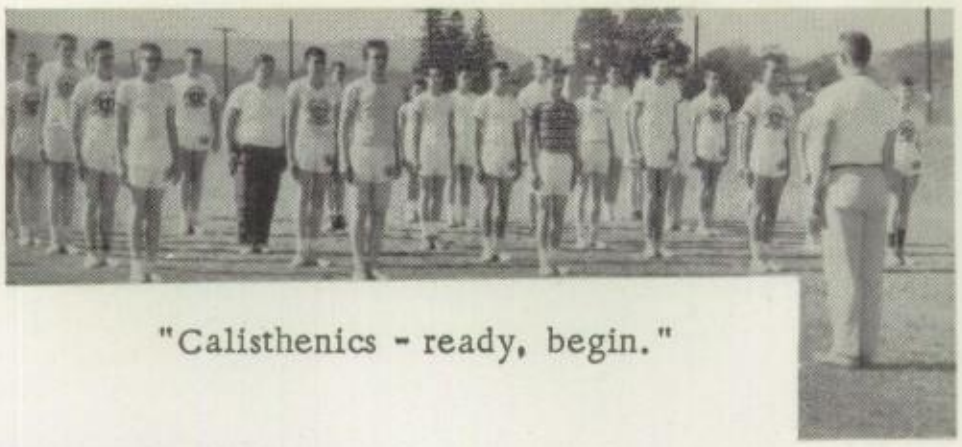
"SWINGING Sweaters???"

"Man - That beat!"

"Come on, Baby, Let's do the twist."

"Ay-yi-yi-yi-yi . . . ?"

ALL IN



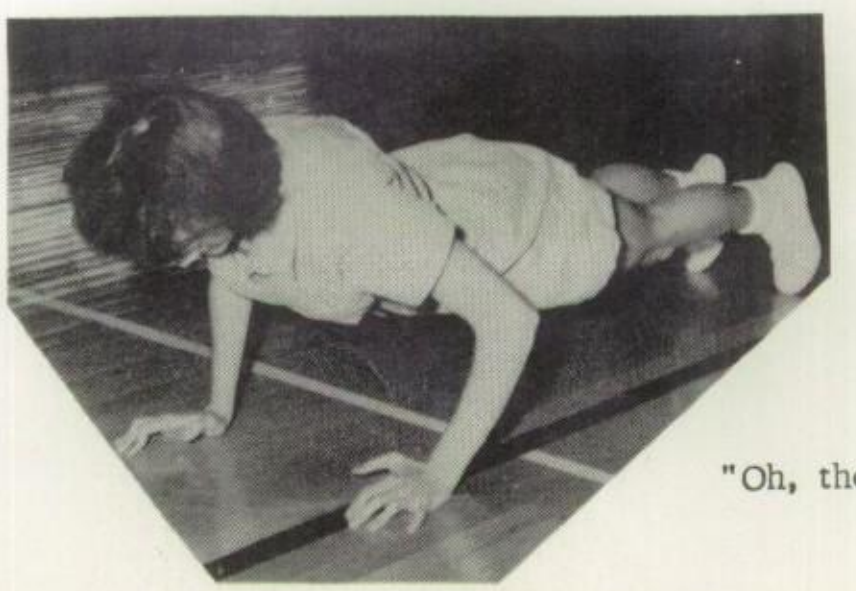
"Calisthenics - ready, begin."

"Now, this is the way it is, girls . . ."

"What's that answer?"

"I'm warning you, Mr. Zilius!"

"Now, this is the steering wheel!"



"Oh, those push-ups!"

A DAY'S WORK

"Smile, Carey, he's taking our picture!"

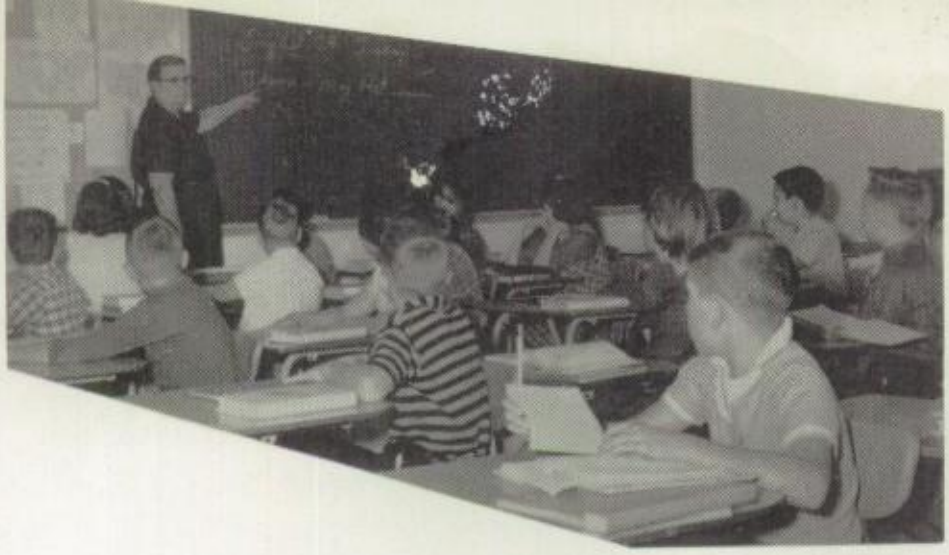
"Hi!"

"Busy, busy students!"

"We should have worn our high-heeled sneakers."

"Oh, my sternocleidomastoid!"

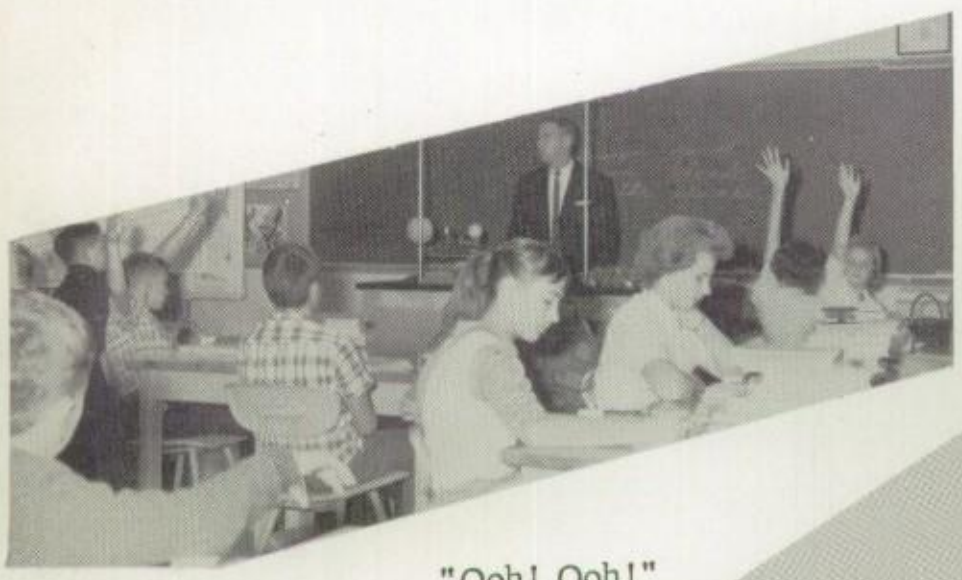
"Don't we look studious?"



"All eyes to the front!"

"Study, Study, Study!"

"Now for the more intelligent . . ."



"Ooh! Ooh!"

CLASSROOMS

"Now, what was that word . . ?"

"Don't argue with me!"

"Quiet in that corner!"

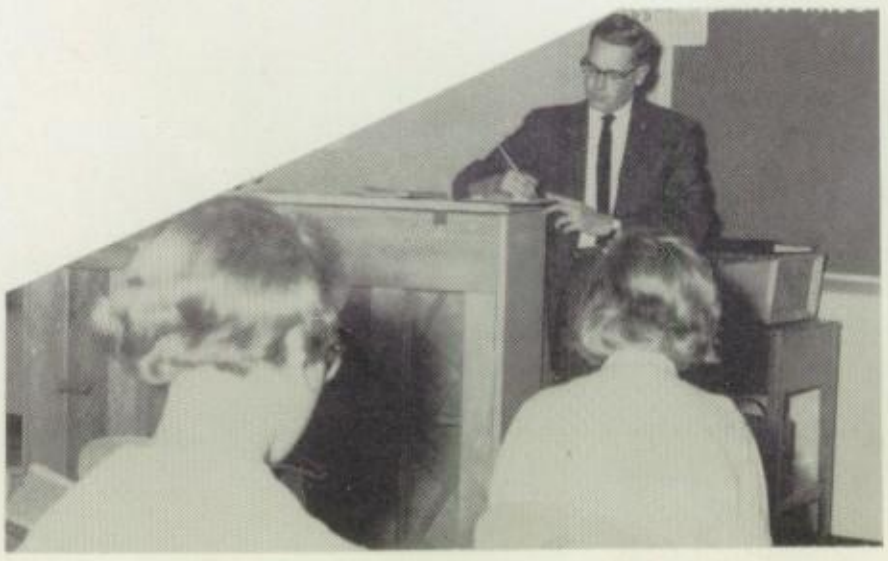
"What's so funny?"

AND CAPTIONS

"Listen, my children and you shall hear . . . !"

"I'm watching you."

"Get busy, Frank!"



"Shh! We're thinking."

OUR SCHOOL NURSE

Mrs. Ambronica Bennett

"Juniors get Chest X-Rays."

Mrs. Bennett makes a routine check.

Our two local doctors spend a great deal of time through the years providing medical service for our students, including physical examinations from the early grades through graduation.

They also support our athletic program by providing medical examinations for our athletes without charge and make their professional services available to all our games.

We are glad of the opportunity to say "thank you" to our school physician, Dr. H. William Stewart, and to Dr. Donald C. Malcolm.

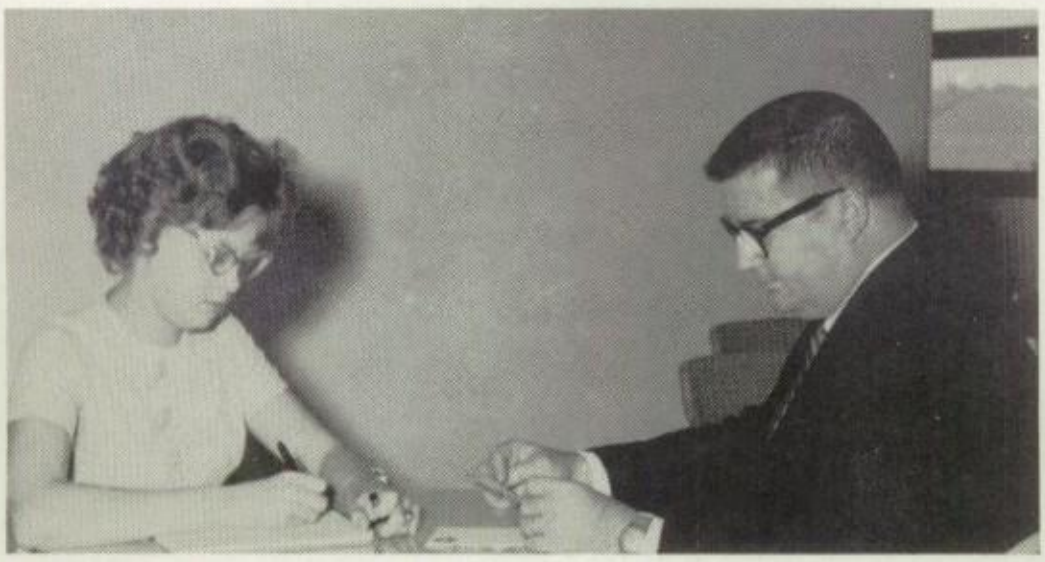
OUR FUTURE SECRETARIES GET SOME VALUABLE EXPERIENCE

Judy, Janet, and Rosalie work together on an important duplicating project.



Mr. Barkman keeps Eileen busy with a variety of secretarial tasks.

Mr. Kyper dictates to Barbara.

Mrs. Hohman gives Connie a chance to show her shorthand speed.

Both seniors and juniors in the Business Education Course serve as secretaries to members of the faculty. The students gain much-needed experience and the teachers are grateful for the help.

Don gets it all down for Mr. Minor.

Nineteen hundred and seventy-two
Doesn't that make you coo?
To think that the graduates of '62
All are now doing something new?

We're going from ABC
Clear down through XYZ.
The names of your classmates you will see--
Ten years later--what they turned out to be.

Remember in nineteen sixty-two,
Rachel Alter was small and quiet, too?
Well, looky here, holding a wonderful job
Five-foot-nine Rachel surrounded by boys in a mob.

Next in the A's comes that Paul Amersbach!
We saw him last week and boy! did he talk.
He explained that, as he wished, he was a mechanic
But if he didn't get Montz's car fixed, he'd be really frantic.

Look, look up in the sky so blue!
There goes Pilot John Ayers and his crew!
Maybe they are a little off course,
But let's not say anything to the Air Force!

Do you remember Baltosser, Eugene?
Well he was like Jack--starting out with one bean.
His bean business grew and grew and grew.
Now he's leading in U. S. and in Canada, too.

Guess what happened first to Major Bill?
Off to the Army he went and got shipped to Bunker Hill.
"But," said Bilger, "this ain't the Korean War!"
He needs to study history and English some more.

"Look at my beautiful hair!" said a girl one day.
Said we, "Who did that, by the way?"
Who else but famous Janet--Bigelow once?
She conquered a certain guy and now new hair styles are all she hunts.

Gee, Wayne Boonie sure turned out to be a success!
But in confidence he told us, "I must confess
I am really a kind of secret guy.
You see, I'm an investigator for the F.B.I."

Driving through Texas, we spied a young man on a mink couch.
Well, of all people, it was rich Ken Bouch!
Already making a million on his farm,
For in a few oil wells, he found no harm.

Romaine Carper was the girl of great ambition
And to fill this, she accomplished her mission.
Her ambition was to earn a living,
Now three quarters of it in taxes she's giving!

Miss Connie Conrad, of course, you all knew,
Is keeping books for the Bureau of Internal Revenue.
If you're wondering where all that tax money goes
It costs to take trips to see all her beaus.

Ann Cassatt started work in a perfume factory
But now all of that's just a fond memory.
She rose in height to the company's president,
And now even the men say she deserved every scent.

Ellen Hammond

Charlotte Lippy

Janet Bigelow

John Edmiston

Donna Showalter

Dorothy Layton

Barbara Greene

Betty Sponsler

John Itinger

Irv Phillips

William Bilger

Connie Conrad

Ronnie Houck

Rosalie Myers

and taking notes
Our secretary, Eileen Diehl, with the many mink coats.
You see she works in a factory that makes costly wraps
And she gets hers by sitting on all the bosses' laps.

It's ten o'clock, turn on the T. V.
Carol Daubert's Show I have to see!
She gives you tips on how to cook,
The very best way a man to hook.

Every morning at just half-past five,
Farmer Eberle pulls up the drive.
He delivers the milk and out he backs
In one of his numerous Cadillacs.

John Edmiston is now a Colonel in the service.
All the men under him are jumpy and nervous.
He sits at his desk and bellows orders, right and left,
Scaring all those poor little men half to death.

"I'm off to see the world," said Anne Fleming one day;
And from all reports, this she did in a big way!
Her adventures were on lands small and wide, hot and cool,
But to top this all off, she's now teaching school.

Off to the doctor's I went in a "flee,"
Only to find Polly Eichelberger as the secretary.
She gave me a pill and a shot, too.
Boy! Was my . . . er . . . arm black and blue.

Let's go team! Get that ball!
Why that's Ron Foster coaching them all.
Out on the field go his well-trained men.
Oh-oh, he's looking at the cheerleaders again.

In a hospital works Miss Judy Frye
The head of her department and you can see why.
Besides being a good secretary, always willing to try,
She's the one that catches the doctor's eye.

Cockle doodle doo, crows the rooster just at dawn.
Up jumps Glenn Geissinger and his mouth opens in a yawn.
Out to work he must go on his huge farm estate.
He must hurry, for a cow is one thing that won't wait.
In the middle of the ocean sits a big, big boat,
And down below Seaman Gensimore tries to keep it afloat.
He works hard to please his captain, the head of the band,
But the "Cap" wishes Dink had never left land.

Guess who makes the clothes famous women like to wear?
Why our own Sondra Gill--she's beyond compare.
With a nifty hand she stitches and sews
And she even designed those out-of-space clothes!

Up into space went Astronaut Gill
And landed on Mars with a glorious thrill!
He signals to Earth now twice on each day
And tells how he's keeping the Russians away.

Working hard for the health of our nation today
Toils Barbara Grassmyer in a dedicated way,
Making new serums and all types of drugs.
Aren't you glad you aren't one of those little bugs?

Barbara Greene packed up her bags and left Barree.
Off she went to study hard and get her college degree.
She is now a physical therapist
With her name quite high on the medical list.

The Brooklyn Bridge fell down one day
And Architect Daniel Hammond shouted, "Hooray!"
"You don't need to worry, you don't need to "fretter"--
I'll rebuild that bridge so it's bigger and better."

Rollers, manicures, shampoos, pincurls
Make Ellen Hammond famous with the girls.
Your men will get done with that special care
The men will all stare and say, "Looky there!"
The way to man's heart's through his stomach, 'tis said.
Girls, take him to Caroline Henderson's to be fed.
Here you'll find that you will conclude
That Caroline sure has a way with fine food.

The title of Cecil Hawn is D. A.
You see, he now works for the state of P-A.
He hollers and shouts and gets all overheated,
But the judge just growls at him, "Cecil, be seated!"

Ron Houck worked hard and finally flew
To the rank of Captain in the Air Force blue.
He sees other countries, both near and far,
But still says, "Nothing can beat my old car!"

What was that date? Who was that man?
Did your children tell you about your history teacher, Joan?
Besides teaching children each fact and date
She is now running for Senate from our dear old state.

Guess who's selling life insurance?
Jack Itinger who gives you his full assurance
That if you take one of his policies
And die--there'll be loads for your beneficiaries.

Nurse Dorothy Layton works in the maternity ward
Taking care of those babies, she doesn't get bored.
She works very hard at her chosen career
And always is happy and full of good cheer.
On our law enforcement list comes Bill Kern.
To become a policeman he did learn
He round up all bad guys and fastens the gate.
When he lets them go free, he tells them, "Go straight!"

Winter, summer, springtime, fall
Carey Lightner throws the ball.

of league.
And now Carey says, "I am slightly fatigued."

Did you know that mothers are giving up Dr. Spock?
Now to Charlotte Lippy the mommas all flock.
Send the children to Charlotte's Den,
And they'll be so good, you'll want to have ten!

Off to Africa we go--now don't howl--
What if we do see a lion a-prowl?
Don't get yourself all in a fuss
Don McCrum on safari won't let them hurt us.

There is a new car sweeping the nation,
And Mr. Montz says it will be a sensation.
The "Montzster" has seatcovers made out of lace,
And he hopes in his own a coy, pretty face.

Irv Phillips is now a rich scientist.
He's even given science and staff a new twist.
They work all day long with rockets and satellites.
To Irv's little cabin they all scurry at nights.

Joe Piper wanted to further his knowledge
So he packed up his possessions and went off to college.
He studies so hard that he grew very thin.
Says Joe, "What a heck of a shape to be in!"

As U.N. ambassador, Vernon Porter says "War must cease,
And if I have anything to do with it, there will be peace."

greatest authority
To those who object, he cries,
"You're in the minority!"

There's a column in the NEW YORKER which reads "Dear Dot."
Yes, Dottie Reihart gives the answers which are sought.
Since Dottie is married and her life is quite happy.
She advises the girls: "Catch a man--make it snappy!"

"Look at the WAVE!" hollered a sailor.
If we were smart, we'd trail 'er."
In that smart uniform, Duella Riling gets the remarks . . .
Why even the cat meows and the dog barks.

Donna Showalter is a satisfied bookkeeper,
But she doesn't mind coming home to the sweeper.
Her boss says she passes every test
Her hubby says, "Housekeeping? She is the BEST!"

Marylou Showalter to others does teach
And she has fulfilled her ambition to preach.
Helping others in every way,
And in return expects no pay.

"Yes, my name's Donna Sollers.
And I've hundreds of callers."
It's all in the day's work; we were just teasin' . . .
A telephone operator, that's the reason.

At the World Art Museum, Betty Sponsler displayed her painting.
The judges had difficulty keeping from fainting
And said, "This picture's beauty has earned the top shelf . . .

looking yourself!"

Next is the story of a girl named Sandy--
The head of the Walters Company, makers of candy.
All sorts of confections, hard, soft, sour, sweet--
Folks agree that the candy, including Sandy, can't be beat.

One plus one are two; two plus two are four
But to this there's a lot more
For if Charlie Weko is teaching you
You'll know all about plumbing, too.

Connie Wike has now changed her name
But in addition to this she has achieved fame.
In the eyes of her company and of her boss.
They say without her they would show a net loss.

Now, talking it over, we're glad we came
To see how each one of you rose to fame.
It's been fun talking to you while visiting each port
But we must be on our way to complete this report.

In another ten years, again we will call.
Meanwhile, here's hoping each classmate has had a ball.
This is Barbara McElwain and Rosalie Myers
Saying, "Till the next time, each gladly retires."
